

Immunohistochemistry and Immunofluorescence Workshop

February 25, 2004 1-5pm, College of Pharmacy room 111

The SWEHSC Cellular Imaging Core invites you to attend a free afternoon workshop on basic immunohistochemistry and immunofluorescence techniques.

Our speaker is Ethel Macrea, HT(ASCP), Q-IHC, Manager, Technical Consultation Center, Ventana Medical Systems, Inc., Tucson, AZ . Ethel is a member of several committees for the National Society for Histotechnology and speaks at meetings around the country on these topics. She has many years of experience in immunochemical techniques and quality control research.

Please Note: in the event that the lecture room fills up, preference will be given to individuals currently affiliated with the SWEHSC and then on a first-come, first-served basis.

Please register by sending the following information to Doug Cromey <cromey@arizona.edu>:

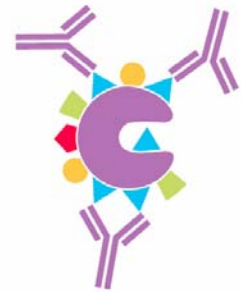

- ◆ Your Full Name
- ◆ Faculty supervisor's name
- ◆ Department name
- ◆ Email address
- ◆ Work telephone number

Recommended pre-workshop reading:

DAKO's "Immunochemical Staining Methods, 3rd Ed."

This is available as a 2.1MB Adobe Acrobat (PDF) file at:

http://www.ihcworld.com/_books/Dako_Handbook.pdf

Images from:
